

Virtual Desktop Modernization

EUC Advanced Environment Management Deployment

BENEFITS

- Control and manage end user desktops and applications with assistance from our knowledgeable Xpert consultants
- Assure success by removing guesswork associated with configuring infrastructure and policies
- Mitigate risks and accelerate time to value by leveraging our experienced consultants

OVERVIEW

The End User Computing (EUC) Advanced Environment Management Deployment assists you with implementing user environment management tools based on an existing desktop design that ensures maximum performance.

A certified Nutanix consultant delivers a comprehensive build service that ensures the environment management tools are deployed according to existing design requirements and that use case requirements are met.

SERVICE SCOPE

Complete the deployment of Citrix Workspace Environment Manager (WEM), VMware Dynamic Environment Manager (DEM) or Microsoft FSLogix infrastructure and construction, including up to 5 policies. This deployment service is based upon existing design and use case documentation.

Deployment includes:

- Review existing design, requirements and use cases
- Configure environment management infrastructure for a single physical site with your choice of WEM, DEM or FSLogix:
 - For Citrix WEM
 - Configure up to 2 WEM brokers
 - Configure required SQL database in existing SQL Server infrastructure
 - Configure Active Directory GPOs as required by design
 - Configure integration to existing file server infrastructure (optional)
 - Configure integration to existing hypervisor infrastructure (optional)

PREREQUISITES

- An existing deployment design that specifies the policies to be created
- Required VMware, Citrix or Microsoft licensing for DEM, WEM or FSLogix
- Configure up to 5 environment management policies based on the existing design
- Install and configure required environment management agents and up to 5 template Images
- Configure assistance for AV and security agents following recommended best practices
- Functionally validate the policies, configurations and application launch

DELIVERABLES

- Project schedule
- Project status reports
- Management infrastructure and policies configured per design
- As-built documentation for the infrastructure and policies
- Project close out

TASK

	Duration
EUC Advanced Environment Management Deployment service	Typically 3-5 days
