# Infrastructure Modernization

BENEFITS

• Accelerate your adoption of the Nutanix platform by leveraging experienced consultants

• Lower risk with comprehensive design documents tailored to your specific requirements

• Identify requirements and considerations to successfully deploy and manage the Nutanix Enterprise Cloud platform

• Prepare for and plan your virtualization infrastructure platform by leveraging recommendations from our experienced consultants

• Take advantage of comprehensive project documentation and a robust knowledge transfer session

OVERVIEW

The Infrastructure Modernization Bundle offerings focus on collaborating with the customer to assess and design virtualization infrastructure. The modernization effort streamlines and accelerates solution deployment and adoption while enabling business outcomes.

HCI Design Workshop	→	Workload Migration Workshop	→	Storage Consolidation Workshop	→	Deployment & Migration Services

Certified Nutanix consultants deliver a series of design and deployment sessions to ensure that solution requirements are identified and met the first time. Our Xpert consultants ensure adherence to Nutanix- and industry-recommended best practices while minimizing cost and complexity.

SERVICE SCOPE

Assess, design, deploy and migrate to a defined future state
This fixed-outcome service has 3 different primary scopes with 3 different sized offerings based upon the goals you wish to achieve and the scale of the environment. Each offering is a bundle of services, as described below.

Starter Service:
For customers who want a basic infrastructure to accelerate time to value when adopting Nutanix as your virtualization platform

Bundle Includes:
• HCI Design Workshop Starter
• HCI Migration Workshop
• HCI Cluster Deployment Starter with your choice of hypervisor
   o   Small-sized bundle includes up to 4 nodes
   o   Medium-sized bundle includes up to 8 nodes
   o   Large-sized bundle includes up to 16 nodes
• Migration of up to 5 existing VMs from an existing 3-tier Infrastructure on vSphere or Hyper-V to the new infrastructure

NUTANIX.

DELIVERABLES

- Project schedule
- Project status reports
- Requirements gathering and design workshops
- Architecture requirements and design documents
- Configuration workbook
- High-level Design/Migration presentation
- Solution Deployment/Migration Plan
- Solution/Migration Test Plan
- Project close out

> **Note:** This offer is available with tiered documentation, defined here **https://www.nutanix.com/support-services/consulting-services/documentation-tiers**

Additional node deployments, virtual machine (VM) and physical machine (PM) migrations or additional services can be added using a la carte offerings to meet your needs.

Pro Service
For customers looking for a more comprehensive design focusing on migration of existing workloads and storage, driving adoption and maximizing the value of the Nutanix HCI platform

Bundle includes:
- HCI Design Workshop Pro
- HCI Migration Workshop
- HCI Storage Consolidation Workshop
- HCI Disaster Recovery Workshop
- HCI Cluster Deployment Pro with your choice of hypervisor
  - o   Small sized bundle includes 4 nodes
  - o   Medium sized bundle includes 8 nodes
  - o   Large sized bundle includes 16 nodes
  - o   Pro deployment includes your choice of Files, Volumes or Objects
- Migration of up to 5 existing VMs (maximum of 2.5TB) from 3-tier infrastructure on vSphere, Hyper-V or AHV to the new infrastructure
- Migration of up to 5 TB of existing File data to Nutanix Files (optional)
- HCI Disaster Recovery Deployment
- HCI Backup Architecture Deployment

Additional node deployments, VM and PM migrations or additional services can be added using a la carte offerings to meet your needs.

Ultimate Service
For customers looking for a full-stack transformation and modernization of their infrastructure, with a focus on security using Nutanix Flow Network Security (networking micro-segmentation) and Flow Virtual Networking (software-defined networking).

Bundle Includes:
- HCI Design Workshop Ultimate
- HCI Migration Workshop
- HCI Storage Consolidation Workshop
- HCI Micro-segmentation Workshop (optional)
- HCI Cluster Deployment Ultimate with your choice of hypervisor
  - o   Small sized bundle includes 4 nodes
  - o   Medium sized bundle includes 8 nodes
  - o   Large sized bundle includes 16 nodes
  - o   Ultimate deployment includes Files, Volumes and Objects
- Migration of up to 5 existing VMs (maximum of 2.5TB) from 3-tier infrastructure on vSphere, Hyper-V or AHV to the new infrastructure
- Migration of up to 5 TB of existing File data to Nutanix Files (optional)

NUTANIX™

- Configuration of Nutanix snapshots for data protection with up to 5 protection domains
- Deployment and configuration of Nutanix Flow with up to 10 policies
- Deployment and configuration of Nutanix Prism Pro with up to 10 action policies
- Deployment and configuration of Nutanix Async DR with up to 10 protection domains or Metro Availability for one cluster-pair

Additional node deployments, VM and PM migrations or additional services can be added using a la carte offerings to meet your needs.

TASK

	Starter	Pro	Ultimate
Nutanix Infrastructure Modernization	Up to 25 days	Up to 41 days	Up to 51 days
