

# Files Migration

Product Code: CNS-INF-A-SVC-MIG-FIL

## At-a-Glance

### Stage: Migrate

Files Migration offers IT Storage teams strong storage domain expertise to migrate unstructured file data to the Nutanix Unified Storage (NUS) Files data services which provide scale-out distributed file storage solutions. IT Storage teams can choose migration scenarios for on-premises NCI clusters, dedicated NUS clusters, or Nutanix Cloud Clusters (NC2). This offer is ideal during the Migrate stage of a Hybrid Multicloud journey.

## Service Scope

Highly skilled consultants with strong storage domain expertise and rich experience begin with validating the customer-provided migration plan to ensure the storage migration requirements and post-migration validation plan are accurate. The consultant then migrates the unstructured file data according to the migration plan.

The service includes the following activities:

- Validate storage migration requirements and validation plan
- Deploy migration tools (at Nutanix discretion) as required
- Migrate the unstructured file storage based on the migration plan
- Monitor the migration process via periodic touchpoints
- Remediate identified migration issues
- Execute the existing post-migration validation plan

## Limitations

- Migration planning is not included
- Quantity of TiB limited to the quantity specified at the time of purchase

## Supported Hypervisors

- Nutanix AHV

## Prerequisites
